

Work in Civil Construction Skill Set

State ID: AE160

About this course

The civil construction industry has many large projects underway across Perth and in regional areas

The Work in Civil Construction skill set will **get you job ready to join a construction team or work as a trades assistant (TA)**, with a key focus on working safely on construction sites so that you can understand and follow mandatory work health and safety requirements in accordance with legislative requirements. This includes the safe use of electricity and identifying hazardous materials, as well as infection control and prevention procedures to ensure you're working safely and have an understanding of basic risk control measures and emergency procedures. **White card certification is included with this skill set.**

You'll also learn how to operate specialised equipment such as scissor and boom lifts and elevated work platforms (EWP), undertake minor concreting and rendering tasks and perform minor repairs, undertake plumbing work on roofing structures, carry out levelling operations, and install trench support. You'll be very job ready with this one.

This skill set is related to the Skills Ready program. Other skill sets can be found on our [Courses](#) page, using the *Refine course results>Study mode* filters.

Details

During your course of study, NMTAFE may use a variety of learning practices to ensure you get the best outcome for your learning journey.

This may include online learning, face-to-face classroom, laboratory/workshop delivery, work placement or a combination of these, depending on which is most appropriate.

Semester 2, 2020

Balga - On Campus

Duration: **10 Week/s**

When: **Semester 2, 2020**

How: **On campus**

Units

Core

National ID	Unit Title
CPCCCM2008	Erect and dismantle restricted height scaffolding
CPCCCM3001	Operate elevated work platforms up to 11 metres
CPCCCM3006	Carry out levelling operations
CPCCWHS1001	Prepare to work safely in the construction industry
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry
CPCPCM2043A	Carry out WHS requirements
CPCPCM2054A	Carry out simple concreting and rendering
CPCPCM2055A	Work safely on roofs
RIICCM210D	Install trench support
RIISAM204D	Operate small plant and equipment
CPCCCM2010B	Work safely at heights
CPCCOHS2001A	Apply OHS requirements, policies and procedures in the construction industry

Further study

[Certificate IV in Building and Construction \(Building\)](#)

Other qualifications for further study include the following.

Important information

Students need to wear personal protective equipment (PPE)

Timetable

Starts 27 August: 10 weeks, Mondays, Tuesdays, Wednesdays 8.00am - 3.45pm

Starts 5 October: 10 weeks, Mondays, Tuesdays, Wednesdays 8:00am - 3:45pm

Fees and charges

Local full time students

Course fees are made up of two components, tuition fees and resource fees.

Tuition fees are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

Resource fees are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

International Students

Check [TAFE International WA](#) to confirm this course is available to international students. You will pay your tuition fees to TIWA.

Please note, fees are subject to change.
