

Certificate IV in Web-Based Technologies

State ID: AWE7

About this course

Enter the vast world of website design and development

Most businesses and organisations have an online presence and websites have become an essential part of any organisation looking to reach out to its target audience.

Upon completion of this qualification you'll be able to be involved in both the **design and technical development of a website**, designing and constructing web pages and **creating the look and feel** of the site. With your qualification you could find a career as an in-house designer or work in a design studio.

Our Certificate IV in Website Technologies is the foundation and core development structure that **leads into our Diploma of Web Development**. Essential concepts covered include Front-end and Back-end development. You'll be encouraged to develop the independent thinking and problem solving skills needed for communicating and working with clients in the Diploma course.

Technologies taught include the latest industry standard HTML5, CSS3, PHP, MySQL and JavaScript using a range of development tools.

Gain these skills

- Digital graphics skills through UX (User Experience) and UI (User Interface) design principles
- Using a variety of technologies including HTML5, CSS3, PHP, MySQL and JavaScript
- Testing sites to meet and comply with W3C standards that cover Accessibility and Usability, Findability and SEO development

Is this course right for me?

I have the following attributes:

- Comfortable working to deadlines
- Good communication skills
- An aptitude for design

- Keen to keep up to date with new web technologies and trends

Fees and charges

View our [Indicative Fees list](#)

Local full time students

Course fees are made up of two components, tuition fees and resource fees.

Tuition fees are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

Resource fees are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

International Students

Check [TAFE International WA](#) to confirm this course is available to international students. You will pay your tuition fees to TIWA.

Please note, fees are subject to change.
