

Certificate III in Glass and Glazing

State ID: BEC9

About this course

This course is offered as an apprenticeship only.

Do you want a trades career with the class of glass?

You will gain the knowledge and skills to work effectively in the construction industry, fabricating and installing residential and commercial glazing, preparing and installing mirrors, shower screens, and splashbacks, working with architectural and structural glazing, measuring, calculating the right amount of materials for the job, and workplace health and safety.

PLEASE NOTE: Metropolitan apprentices attend Balga for their training, however, for South West Regional apprentices much of the training is conducted at the workplace.

Local full time students

Course fees are made up of two components, tuition fees and resource fees.

Tuition fees are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

Resource fees are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

Check [TAFE International WA](#) to confirm this course is available to international students. You will pay your fees to TIWA.
