## Prerequisites

You will need a current CPR (First Aid) certificate.

To enrol in UEENEEH150A Assemble and set up basic security systems, you will need to have completed the following prerequisite units:

- UEENEEE101A Apply occupational health and safety regulations, codes and practices in the workplace
- UEENEEE102A Fabricate, assemble and dismantle utilities industry components
- UEENEEE105A Fix and secure electrotechnology equipment
- UEENEEE107A Use drawings, diagrams, schedules, standards, codes and specifications

## Fees and charges

If you have completed electrical, security or data training at a Certificate II or III level in the last five years and you can provide academic records of the prerequisite units listed in the tab above you do not need Recognition of Prior Learning (RPL). The cost of the course will be approximately \$400.

If you have completed training more than five years ago or have been working in the field you may be eligible for RPL, please contact us to discuss this option with the academic area. Cost of the course including RPL is approximately \$650.

**Please note, fees are subject to change.**
