Online Front-End Development Skill Set

State ID: EAB58

About this course

Gain essential skills to be able to create responsive and interactive web pages

Whether you are a school leaver, career changer or looking to set up your own web site, this skill set will provide you with skills in HTML5, CSS3 and JavaScript.

You can build on your website design and development skills by completing more of NMT's suite of skill sets or continue on to complete our Certificate IV in Web-based Technologies

Gain these skills

- Use text editor to design, create and save web pages to a given specification, rather than using an authoring tool
- Develop interactive and engaging websites, using JavaScript, HTML5 and CSS3
- Successfully develop and integrate social networking code into new and existing websites
- Participate in work health and safety (WHS) communication and consultation processes in the Web Industry
- Transfer content, from a remote location to a web server, using a range of commercial ICT products so you can successfully upload new, or revised, information on a website

Some of the courses on the list can be done completely online. However some of the courses require a practical component which can't be done online, or some may be a mix of online and face-to-face learning. We'll let you know what's required for your course. For a full list of online courses, please use the filters under the *Refine course results* menu.

This skill set is related to the Skills Ready program. Other skill sets can be found on our Courses page, using the *Refine course results>Study mode* filters.

Details

During your course of study, NMTAFE may use a variety of learning practices to ensure you get the best outcome for your learning journey.
This may include online learning, face-to-face classroom, laboratory/workshop delivery, work placement or a combination of these, depending on which is most appropriate.

Semester 2, 2020

---

[🖥️] Certificate IV in Web-Based Technologies

You can further your studies with our other web design skill sets and/or continue on to study NMT's Certificate IV in Web-Based Technologies

Fees and charges

Local full time students

Course fees are made up of two components, tuition fees and resource fees.

Tuition fees are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

Resource fees are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

International Students

Check TAFE International WA to confirm this course is available to international students. You will pay your tuition fees to TIWA.

Please note, fees are subject to change.
