

# Weld to Code AS1796 Preparatory Skill Set

State ID: EAB59

## About this course

### Strengthen your skills to advance your welding career

This course will provide you with the required knowledge of safe and appropriate **welding practices** to meet the **theory** component of Australian Standard 1796 (AS1796).

The skill set is designed for apprentices in heavy or light fabrication who are nearing completion of their TAFE studies and others with a suitable trade qualification, or relevant experience working as a tradesperson in the welding and fabrication industry, who are looking to further their welding knowledge.

### Gain these skills

- Interpreting all welding terms, codes and symbols
- Plan the logical sequence of welding operations

## Fees and charges

View our [Indicative Fees list](#)

### Local full time students

Course fees are made up of two components, tuition fees and resource fees.

**Tuition fees** are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

**Resource fees** are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

### International Students

Check [TAFE International WA](#) to confirm this course is available to international students. You will pay your tuition fees to TIWA.

**Please note, fees are subject to change.**
