

Weld to Code AS1796 Preparatory Skill Set

State ID: EAB59

About this course

Strengthen your skills to advance your welding career

This course will provide you with the required knowledge of safe and appropriate **welding practices** to meet the **theory** component of Australian Standard 1796 (AS1796).

The skill set is designed for apprentices in heavy or light fabrication who are nearing completion of their TAFE studies and others with a suitable trade qualification, or relevant experience working as a tradesperson in the welding and fabrication industry, who are looking to further their welding knowledge.

Gain these skills

- Interpreting all welding terms, codes and symbols
- Plan the logical sequence of welding operations

This skill set is related to the Skills Ready program. Other skill sets can be found on our [Courses](#) page, using the *Refine course results>Study mode* filters.

Details

During your course of study, NMTAFE may use a variety of learning practices to ensure you get the best outcome for your learning journey.

This may include online learning, face-to-face classroom, laboratory/workshop delivery, work placement or a combination of these, depending on which is most appropriate.
