

Infection Control for the Personal Services Industry Skill Set

State ID: EAB64

About this course

With the current pandemic of COVID19, trust is at an all-time low and so encouraging customers back into personal services industry outlets such as **Beauty Salons and Massage Clinics** is vital.

This skill set has been established as a quick response for current personal services employers and employees to build and buy back that trust.

You'll undertake two units of competency from the SHB50115 Diploma of Beauty Therapy, a nationally recognised qualification, to demonstrate to your customers that you are taking every care and precaution to provide a safe environment for them.

You will have the ability to review your clinic compliance with the applicable state and local council requirements.

This skill set provides an opportunity for those working in the **Beauty or Massage Therapy** industries to build on the skills they have already gained and help to reset their business during this challenging environment.

Gain these skills

- Identify, manage and control infection risks to clients, self and colleagues
- Follow hygiene guidelines
- Maintain infection control during skin penetration
- Maintain clean work area and equipment

- Use personal protection and work safely

Is this course right for me?

I have the following attributes:

- Good oral and written communication skills
- Able to write clear and concise reports
- Work as a member of a team

Some of the courses on the list can be done completely online. However some of the courses require a practical component which can't be done online, or some may be a mix of online and face-to-face learning. We'll let you know what's required for your course. For a full list of online courses, please use the filters under the *Refine course results* menu.

This skill set is related to the Skills Ready program. Other skill sets can be found on our [Courses](#) page, using the *Refine course results*>*Study mode* filters.

Details

During your course of study, NMTAFE may use a variety of learning practices to ensure you get the best outcome for your learning journey.

This may include online learning, face-to-face classroom, laboratory/workshop delivery, work placement or a combination of these, depending on which is most appropriate.

Semester 1, 2020

Joondalup (McLarty Avenue) - Online

Duration: **7 Week/s**

When: **Semester 1, 2020**

How: **Online**

Units

Core

National ID	Unit Title
SHBBINF001	Maintain infection control standards
SHBXWHS001	Apply safe hygiene, health and work practices

Fees and charges

Local full time students

Course fees are made up of two components, tuition fees and resource fees.

Tuition fees are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

Resource fees are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

International Students

Check [TAFE International WA](#) to confirm this course is available to international students. You will pay your tuition fees to TIWA.

Please note, fees are subject to change.
