

Photography - Black and White Darkroom Skill Set

State ID: EAB78

About this course

Let's get creatively traditional in black and white

You'll need a film camera and an interest in producing traditional B&W prints to get the most of this skill set. Learn with lecturers who are experienced photographers and develop your skills in our functional teaching darkroom.

Gain these skills:

- Using a film camera to take photos
- Film processing
- printing from negatives
- create images using an antique cyanotype process

This skill set is related to the Skills Ready program. Other skill sets can be found on our [Courses](#) page, using the *Refine course results>Study mode* filters.

[Diploma of Photography and Photo Imaging](#)

Important information

You'll need your own 35mm film camera.

Fees and charges

Local full time students

Course fees are made up of two components, tuition fees and resource fees.

Tuition fees are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

Resource fees are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.
