

# Ceramics - Glazing Skill Set

State ID: EAC23

## About this course

### Cover glazing techniques

Whether you are a ceramicist or potter looking to explore and experiment, or an art teacher/technician wanting to complete some professional development in a **ceramics studio environment**, this skill set will extend the scope of your current techniques and help you ensure safe creative practice.

NMT is the only higher learning institution with formal qualifications in ceramics in WA. We have dedicated facilities and **world-renowned ceramicists as lecturers**.

This specialist glazing skill set covers the science and technology of glazing pottery, porcelain and ceramics as well as the various techniques that can be employed.

## Fees and charges

### Local full time students

Course fees are made up of two components, tuition fees and resource fees.

**Tuition fees** are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

**Resource fees** are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

### International Students

Check [TAFE International WA](#) to confirm this course is available to international students. You will pay your tuition fees to TIWA.
