

SC-BCB-V1271 Woodwork Introduction

State ID: SC-BCB-V1271

About this course

Show off the wood working skills you gain in this short course by building your own small piece of furniture, a coffee table, toy box or bedside cabinet for example. You'll learn how to use many of the hand tools and power tools used by a cabinet maker. During your first week you'll focus on the various power tools used in the trade, learn about their application. The safe use of tools and Workplace Health and Safety will also be covered.

You'll also cover:

- marking out and cutting timber to size
- methods of joining and fixing timber using glue, nails, screws and bolts
- clamping materials together correctly
- the use of drawer runners and other hardware
- ornate trims and mouldings

Materials and hardware will be supplied. No previous experience required.

You will need to supply your own personal protective equipment (PPE) including safety glasses, earmuffs or ear plugs, dust mask and closed in footwear.

For more details please view [our flyer](#).
