

Laser shaft alignment

State ID: SC-MFM-V1241

About this course

This course is designed for technicians and installers who need the skills to align industrial equipment

If you have to **align shafts, couplings, gear boxes** and **pumps** and use **laser alignment equipment**, this one day course will explain shaft and coupling techniques and give you hands on use of laser alignment instruments including soft foot and blue tooth connection.

Details

During your course of study, NMTAFE may use a variety of learning practices to ensure you get the best outcome for your learning journey.

This may include online learning, face-to-face classroom, laboratory/workshop delivery, work placement or a combination of these, depending on which is most appropriate.
