

SC-MFM-V1302 Introduction to Solidworks

State ID: SC-MFM-V1302

About this course

SOLIDWORKS is a versatile software package that has a wide range of uses in the workplace and also in many hobbies.

It can be used in small and large applications and across many fields and industries, such as **engineering, industrial design, sculpture** and **architecture**.

This short introduction course held at North Metropolitan TAFE's Midland Campus takes you through:

- touring the interface
- the 3D workspace
- basic sketching tools
- relationships and sketching tools
- sketch-editing tools
- reference geometry
- building 3D geometry
- removing material
- refining geometry

This course is run for six evenings, Tuesdays, 6:00pm - 9:00pm

For more information view [our flyer](#).

Fees

\$510
