

# REVIT essentials for architecture

State ID: SC-PBC-V1312

## About this course

### Develop new skills in 3D modelling

This course will introduce you to Autodesk REVIT, a building modeller for architectural design and documentation in 3D and 2D. You will learn the concepts of 3 dimensional computer modelling and gain an understanding of the tools required for parametric building design and documentation using REVIT Architecture.

### Course Outline

After completing this course you will be able to:

- Understand the benefits of 3 dimensional modelling
- Use the fundamental features of REVIT Architecture
- Use the parametric 3D design tools to design projects
- Create detailing and drafting views
- Create construction documentation
- Use the presentation tools for design visualization

Courses are run over four Fridays.

## Details

### Semester 1, 2019

#### Perth (Northbridge) - Short Course Part Time Sem 1 Intake

When: **Semester 1, 2019**

How: **On campus
