## About this course

### Continue the journey

On completion of this course, you will be able to communicate in simple language with **more confidence** and competence in **a wider range of situations**.

The French language is spoken in many parts of the world and has long been used as the language of diplomacy. Even though French is no longer an official language in many countries due to political changes, it is still spoken in many parts of Canada, Africa, the islands of Reunion, the Antilles, Madagascar, Mauritius, New Caledonia and Tahiti. Also once you have mastered French, you will find it relatively easy to pick up Italian and Spanish as well.
