About this course

We've been producing skilled construction workers for over 50 years - making us the perfect choice for your training

This Diploma has close ties with the Builders Registration Board and gives you the practical skills to work as a builder on medium rise constructions. You will also supervise construction-planning processes.

There are many ways that you can study this course including full time, part time, Flexible Learning Stream and work based. For information about Flexible Learning Stream (FLS) delivery for this course, view our flyer for details, or call us to discuss our other study options.

Gain these skills

- Building codes and standards knowledge
- Structural principles
- Medium size building project management

Is this course right for me?

I have the following attributes:

- Good communication and team working skills
- Management and leadership skills
- Good organisational skills
- Technical aptitude

- Evenings (part-time)

If you have completed the CPC40110 Certificate IV in Building and Construction (Building), you may be able to complete this course in 12 months.

Fees and charges

View our [Indicative Fees list](#)

Local full time students

Course fees are made up of two components, tuition fees and resource fees.
Tuition fees are determined by multiplying the course fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit. They are not the hours of training or instruction.

Resource fees are charges for material that are essential to a course or unit, and are purchased by NMT to be used by students during the course.

Fees may vary depending on the units you are enrolled in so an approximate amount has been shown. You will be given the exact amount of your fees at enrolment. Part time student fees will vary depending on the number of units you are enrolled in.

Please note, you may also need to buy textbooks or equipment for your course.

International Students

Check TAFE International WA to confirm this course is available to international students. You will pay your tuition fees to TIWA.

Please note, fees are subject to change.
