Do you want to set yourself up to work in the Disability Sector, one of the fastest job growth areas?

North Metropolitan TAFE (NMT) is working in partnership with Brightwater Disability Services to offer an innovative delivery model of CHC33015 AA67 Certificate III in Individual Support (Disability).

How will it be delivered?

You will complete an intensive study block of four days/week over three weeks at the Leederville campus.

For the following 9 weeks you will attend two days of clinical placement (Mon, Tues or Thurs, Fri) where you will be placed in a group home facility. You will be required to continue to attend classes on the Wednesday during this time.

A range of study support methods will be put in place to assist students to complete the qualification.

To apply go to: www.northmetrotafe.wa.edu.au

For further information email: student.mtl@nmtafe.wa.edu.au

What’s good about this pathway?

NMTafe has worked closely with Brightwater to ensure that your training meets the needs of industry.

Undertaking a placement over an extended length of time allows you to become familiar with your clients, the people you are working alongside and the organisation where you are doing your placement. This provides the perfect opportunity for you to impress those you are working with and help you to secure a job in the industry.

Maintaining contact with your classmates and lecturers on a weekly basis allows you to continue to develop your skills and knowledge. This will be an enormous benefit. You will be able to debrief, talk through things that are going well and get additional support for areas that you are not that sure about.

About the qualification

This course will give you the ability to enhance the independence, lifestyle and empowerment of people with a disability.

You will gain firsthand experience working closely with clients and others, developing skills that will increase your chances of employment.

To apply, go to our website www.northmetrotafe.wa.edu.au

Once you have successfully completed the qualification there are a number of pathway options for you to choose, these include:

Further studies in Disability or Allied Health at a Certificate IV or Diploma level

Completion of a skill set in aged care; home and community care for a dual Individual Support Qualification
