Are you an Enrolled Nurse who would like to administer medicines and intravenous therapy at your health care facility?

North Metropolitan TAFE is offering a Medicines and Intravenous Therapy Skill Set to equip you to do this.

Who is this aimed at?
If you are a qualified Enrolled Nurse who is currently working in a health care environment, you can gain the skills required to administer medicines and intravenous therapy by completing this Nationally Accredited unit: Administer and monitor medicines and intravenous therapy [HLTENN007]

Why North Metropolitan TAFE?
Training is flexible with a mix of online and workshops. Intakes for this course are offered frequently and can also be tailored to groups undertaking training. Entry to this course can be customised to take into account prior education and experience.

Location
North Metropolitan TAFE McLarty Campus
63 McLarty Ave, Joondalup
